

Remote Skills Verification (RSV)

RSV with blended learning is the perfect combination of cognitive learning with flexible and remote skills-verification guided by a live authorized instructor.

How RSV Works

Student takes cognitive portion online when and where it's convenient

A convenient online session is scheduled

Hands-on skills components provided to the student directly

Student and instructor connect remotely for hands-on skills session

Digital certification card is emailed after student successfully demonstrates skills competency

Why RSV?

EMPLOYER BENEFITS

Offers flexible, convenient scheduling

Saves money and improves productivity by reducing class time for your employees

Certification cards are available in a digital format

Fully integrated, user-friendly LMS tracks, notifies, and maintains records

STUDENT BENEFITS

Self-directed study appeals to adult learners

Select a time and location to connect that is best for you

Memorable, easy-to-understand video learning that helps build confidence

Remote skills sessions from authorized instructors for required hands-on practice
